

Clerk's report

Mattishall Parish Council

December 2022

1. Village map update. The following response was received from NCC Highways – **No further action taken, unfortunately due to budget restraints, we have not provided/replaced the display boards or the parish maps for some considerable time.**
2. Works to the clock at All Saints Church are underway. The clockmaker is currently off work sick, they have advised that they will get in contact next week with an update.
3. Elector's request to fill the casual vacancy has elapsed we can now co-opt a Councillor onto Mattishall Parish Council. I have been in touch with a resident who was interested and will proceed to promoting the vacancy via social media, website and posters.
4. Malt House Farm Update - We have received a reply from Chris Curtis (Planning Enforcement Manager at BDC) in reference to our email sent on 22nd April 2022, the following response in short is that Malt House Farm has been assessed by Building Control who deemed it safe with no further action, he advises that the team will encourage the owners to carry out necessary remedial works and improve the property for the benefit of the community.
5. We have had no response from our letters sent on 7th November to Poultec Business Park and Mattishall Surgery reference a meeting to discuss Breckland District Council Local Plan / Call for Sites.
6. A resident has shared concerns of the re-sited location of the dog bin at the corner of Parkers Road, off Dereham Road. It is felt that the position of the memorial bench for our late Queen is spoiled by the dog bin remaining close, despite it already having been moved.
7. Works to the boundary wall to the play area will commence second week in December.
