

Covid Update, issued July 2020

The various parish facilities and events are essential in fostering a cohesive and happy community. Unfortunately, lockdown has dealt this, along with many other things, a substantial blow.

The parish council is committed to reinstating those facilities and events over which it has control as soon as it possible to do so.

Play Area

Each play area is different based on size, equipment and location. Based on the current guidelines opening the play area is not yet possible. The density of the equipment makes social distancing difficult, it is not possible to limit numbers attending or the time they are there, and it is not possible, or cost effective, to put in place a system for cleaning/sterilising the equipment.

The annual external inspection, due this month, will take place as normal and the weekly inspections will re-commence after that with the intention of being able to re-open as soon as guidelines allow.

Youth Club

The parish council is in discussion with the YMCA, who run the club, and the Memorial Hall with the intention of running outdoor sessions, weather and light permitting, during August.

Village Events

We had hoped to add to the village events this year, but again the restrictions and social distancing guidelines mean that instead we have had to cancel/defer events.

We are hoping we will at least be able to have the usual Christmas events.
