

# Clerk's report

## Mattishall Parish Council

November 2022

1. Village map update, no further update.
2. The auto wind to All Saints Church clock was booked for installation on Thursday 27<sup>th</sup> October. The auto wind can take up to six weeks to complete. The clerk had emailed the volunteer to ask if they would be happy to continue to wind the clock manually until the auto wind is complete.
3. Simon Wood Director of Planning and Building Control from BDC responded to our email on 31<sup>st</sup> October confirming Malt House Farm is being looked at by the empty properties team and will come back to us.
4. The letter sent to Norfolk and Waveney CCG re S106 Health provision has been acknowledged and confirmed that they will provide a response in due course.
5. PC 257 Jodie HENDERSON has confirmed that Mattishall has been raised as the priority area for the next 3 months. This means that there should be a significantly enhanced police presence which should hopefully have a positive impact on crime rates in the village.
6. A meeting has been arranged for Thursday 17<sup>th</sup> November at 10am with Highways, the clerk and Cllr members Fowler and Turner to discuss the 20mph speed consultation held back in July. Would the Council like to hire a room for this meeting either at Poultec or Memorial Hall?
7. Can the Council please complete the Rural Mobility Survey during the meeting (this should take no more than a few minutes). The purpose of the survey is to reveal a wider picture to Transport East of the connectivity challenges and opportunities in our region as well as understanding the baseline for transport in rural areas.  
<https://www.smartsurvey.co.uk/s/TERural/>
8. It is with deep sadness to inform the Council that Andrea Taylor has resigned as Councillor due to work and family commitments. I have thanked Andrea on behalf of the Council for her service and wished her well for the future.
9. The Platinum Jubilee bench is scheduled to be installed this week. Please can we plan for the reveal shortly after installation.
